

# Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2010

Planning for the Multi-Modal Transportation Needs of the  
West Memphis-Marion Area Transportation Study

by the  
West Memphis Metropolitan Planning Organization

In Cooperation With  
The Federal Highway Administration,  
The Federal Transit Administration and  
The Arkansas Highway and Transportation Department

**THE CITY OF WEST MEMPHIS AS THE DESIGNATED METROPOLITAN  
PLANNING ORGANIZATION (MPO) FOR THE WEST MEMPHIS-MARION  
AREA TRANSPORTATION STUDY (WMATS)**

## **NOTICE OF NONDISCRIMINATION**

The City of West Memphis (City) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the City does not discriminate on the basis of race, sex, color, age, national origin, religion or disability, in the admission, access to and treatment in the City's programs and activities, as well as the City's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the City's nondiscrimination policies may be directed to Judy Moore, Personnel Director, Paul Luker, ADA Coordinator, or Eddie Brawley, MPO Study Director at 796 West Broadway, West Memphis, AR 72301 (870)735-8148 or [wm.mpo@sbcglobal.net](mailto:wm.mpo@sbcglobal.net). You may also call TTY/Voice number 711.

The preparation and publication of this document was financed in part by funds provided by the United States Department of Transportation, Federal Highway Administration, and Federal Transit Administration. The provision of Federal financial assistance should not be construed as denoting U.S. Government approval of plans, policies, programs or projects contained herein.

October 2010

## **PURPOSE OF THIS REPORT**

FTA/FHWA Preliminary Guidance on Annual Listing of Obligated Projects states that

As revised by the SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B) require "...an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP)."

This is to be a cooperative process...

...SAFETEA-LU, like its predecessor legislation TEA-21, requires the metropolitan planning organization (MPO), State, and public transportation operator(s) to cooperate in preparing a list of projects for which Federal funds were obligated for spending during the immediately preceding year. This cooperation is essential because of the different responsibilities held by the organizations in planning, programming, and project implementation. The MPO presents information on the projected schedule and funding for projects contained in the transportation improvement program (TIP) based only upon what is received from implementing organizations. Similarly, up to date information on implementation of projects in the TIP is available only from those implementing organizations. Thus, the annual report of projects for which an obligation of funds took place must be a cooperative effort...

This provision is intended to increase the transparency of government spending on transportation projects and strategies in metropolitan areas to State and local officials, and to the public at large. Realizing this objective involves promoting accuracy and responsiveness in financial planning and adoption of a proactive approach to sharing information with the public in a meaningful way, at an appropriate time, and in a user-friendly format.

## **MPO BACKGROUND**

In March 1972, the West Memphis City Council adopted a transportation plan as a part of the update to *the West Memphis Comprehensive Plan*. On October 18, 1973, the revised Transportation Plan was adopted. *The Continuing Phase Plan* was approved in 1975, and revised and updated in April 1984 and again in 1986. The West Memphis-Marion Area

Transportation Study Policy Committee, Technical Coordinating Committee, and the Citizens Advisory Committee were established from the Continuing Phase Plan. In conformance with the 1991 ISTEA requirements, the Transportation Plan was expanded to include intermodal, bikeway, and related plans and updated to the year 2020. The MPO Policy Committee officially adopted *the 2020 Long-Range Transportation Plan (LRP)* on December 16, 1994. Following that, in May 2005 the MPO Policy Committee, pursuant to the requirements of TEA-21, adopted *the 2028 Long Range Transportation Plan* which served as the master street plan for the study area until May, 2009 when it was replaced by *the 2033 Long Range Transportation Plan*. The current LRP is SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) compliant and meets the air quality conformity regulations for this area. This year the WMATS was re-designated from a moderate non-attainment area for ozone to a maintenance area. However, the LRP will continue to be updated at least every four years and must continue to demonstrate transportation conformity through 2021.

Additionally, in accordance with both the law and the spirit of the SAFETEA-LU legislation, the West Memphis MPO maintains a *Public Participation Plan* that serves as a guideline to ensure as much public involvement and cooperation with other agencies as possible during the entire planning process. This includes the preparation of the *UPWP*, the *Transportation Improvement Program (TIP)*, the *Long Range Transportation Plan (LRP)* and the *Transportation Conformity Determination Report*.

On June 16, 1983 an agreement was signed between the City of West Memphis, acting as the Metropolitan Planning Organization (MPO), and the Arkansas State Highway and Transportation Department. This agreement provides Metropolitan Planning funds to the City of West Memphis for the purpose of engaging in a comprehensive, continuing, and cooperative transportation planning process as required under *23 U.S.C. 134 and 49 U.S.C. 5303*. The *Unified Planning Work Program* document is prepared as required to authorize expenditure of those funds and is a companion to the AHTD/SPR document.

## **MPO ORGANIZATION**

The West Memphis MPO serves as the forum for collective and cooperative decision making by the principally elected officials of the local governments. The City of West Memphis was designated by Governor Clinton as the Metropolitan Planning Organization/MPO for the West Memphis-Marion Area, Arkansas portion of the Memphis Urbanized Area, in 1983, and subsequent agreements between the Arkansas State Highway and Transportation Department (AHTD) and the West Memphis MPO developed the organizational structure and membership.

The West Memphis MPO is composed of a qualified Study Director, a Technical Committee, a Policy Committee and a Citizens Advisory Committee. The Policy Committee is responsible for the policy direction of the West Memphis MPO. The primary daily administrative and transportation planning responsibilities for the West Memphis MPO are conducted by the Study Director acting under the jurisdiction of the Public Works Director and in cooperation with the Office of Planning and Development of the City of West Memphis.

The study covers a portion of Crittenden County, Arkansas and specifically, the West Memphis-Marion Area Transportation Study (WMATS). The study participants and their designated representatives will undertake all aspects of the transportation planning process identified in the Unified Planning Work Program.

The office of the Study Director, Mr. Eddie Brawley, is located at 796 West Broadway, West Memphis, Arkansas 72301.

In order to begin work on any phase of a transportation project involving federal funds, federal funds must be obligated. This means that the money is set aside for that particular piece of work, and then can be used to pay bills. The project expenses may be bills from a design consultant, a construction contractor, etc.

The following table lists all projects on the WMATS TIP that had funds obligated during the Federal Fiscal Year 2010 (October 1, 2009—September 30, 2010).

DATE SUB	JOB NO	COUNTY	TERMINI	AMOUNT SUBMITTED	FUNDING TYPE	WORKPHASE	PHASE
